Next week has poen the talks which sile has given on the nature of collipses.

An interesting feature of Miss Stokes' classes the past week has been the talks which sile has given on the nature of collipses.

Mr. Garrett's physiography classes have

All interesting feature of Miss Stokes' classes the past week has been the talks which sile has given on the nature of ecilpses.

Mr. Garreti's physiography classes have been studying the form of the earth, latitude and longitude, as well as the timely subject of ecilpses.

In physics the class is at work upon Newton's "Laws of Motion." Several students have completed the laboratory work in measurements and have begun experiments in density.

The art classes are still at work on water-color studies of autumn flowers and on sketching poses from life. Miss Teasdel has placed in the modeling room an excellent reproduction in plaster of the Parthenon frieze, which will be studied by the students in modeling.

In the shadow box this week have been three beautiful woodland scenes in oil, one done at Brighton, the others in a Boston park, by Mr. John Hafen. These pictures are considered as among the best of his landscape work.

At the mid-year Mr. McKay is very desirous of adding to the work in book-keeping a supplementary course in actual business practice. He has already on hand the merchandise cards which form the basis of these transactions, and the only essential lacking is office equipment. This Mr. McKay hopes may be supplied by the second semester.

The classes in commercial geography are at work on the political divisions of the United States, beginning with New England. In locating commercial routes and cities, maps and government reports have proved of great service.

Mr. Pendergrass' advanced shorthand classes have been taking from dictation a speech on "Business Education," delivered by H. M. Rowe before the National Teachers' association at Minneapolis in 1897.

On Tuesdaw Mr. Townsend's commercial arithmetic classes had a test in accuracy

Berkeley: fullback, Harry Bintz. A return game will probably be played next Friday.

No more appointments in the cadet corps have been made this week, with the exception of Harold Lamb, who has been appointed bugler for the east side. Lieutenant Raibh Nelden has been officer of the day the past week, with Private Harold Jones in charge of the flax, and Private Max Adams as bugler. A letter received from Will Nuttall, a former member of the present senior class, tells interesting experiences in his work at Elberfield, Germany, and of his meeting with Winslow Smith in Berlin. Jesse Paul, of the class of 1902, has recently taken a position as assayer at Baker City, Ore.

Mr. Pendergrass spent Friday visiting the commercial department of the Ogden High school.

Mrs. N. Pendergrass, who has been spending the past few months with her son, T. N. Pendergrass, has returned to her home in California.

Miss Bond is now settled for the year at 368 East First South.

On Thursday evening Mrs. Travis entertained the College club.

Louise Cannon leaves soon for an extended visit in Washington, D. C.

Loreen Leary has ro-entered school and begun her work with the junior class.

Florence Arbuckle, Edna Flanders,

of the training school visited the Germania smelter at Murray on Friday afternoon.

O. W. Whicox, who assisted Professor Acree last year in chemistry, is now doing research work at the Chicago university for his doctor's degree. Professor Acree received word this week that Mr. Wilcox has been appointed to a fellowship in chemistry.

On account of overwork during the week of the state teachers' convention. Professor W. M. Stewart suffered a nervous collapse that kept him out of school last week. His class work was taken in hand by the teachers of the training department. It is expected that the professor will meet his classes again on Monday.

On account of an error in the framing of the bill by which the appropriations for the departments of domestic science and kindergarten, and also the branch normal, were made at the last session of the state legislature, the money so appropriated was made accessible during the years 1901 and 1902 instead of during the school years 1901-1902 and 1902-1903. In view of this fact the executive committee of the board of regents and the state board of examiners will hold a meeting on Monday to see what can be done for the relief of these denartments.

Horace Cummings, director of nature study in the training school, has just received through the courtesy of Senator J. L. Rawiins, the year book of the department of agriculture for 192. The book is one of the best references for nature study work that Mr. Cummings has received.

The seats from the lecture room of the old laboratory building on First North street, that have been stored away in the normal building since the removal to the east bench, were removed on Friday afternoon and will be used hereafter for seating the new meeting house at Alpine.

A communication was read before the faculty last Monday stating that Pro-

pine.

A communication was read before the faculty last Monday stating that Professor Milton Bennion desired to present the members with a basket of oranges, but that he was too bashful to venture the announcement himself. It was soon learned that the writer of the epistle had learned of the arrival of a baby boy at Professor Bennion's home. The faculty gave Mr. Bennion the privilege of presenting the oranges at the next meeting.

ated all sorts of fun for themselves. Afternoon classes of course missed all junior members.

The Dramatic association last week elected Miss Lydia Knudsen secretary and treasurer and decided to present two plays during this school year, one before and one after the Christmas holidays. They will meet-again on Monday to select the play to be presented first.

The Normal society on Monday will discuss "Co-education."

The members of this year's normal graduating class on Monday named the following students to select and arrange for a class pin: Robert Garner, Lucy Gaby, Ernest H. Burgess, Margaret H. Hartwell, Perry Rockwood, J. O. Carter and Mary Gray. Miss Genevieve Coleman was selected as class historian.

The executive committee of the student body will give four dances at Christensen's hall this year. Messrs, James Wade and G. C. Riser have been appointed a committee on dates.

Two of the second year girls have withdrawn from school the past week to be married. One, Miss Edna S. Cole, is a sister of Lieutenant E. W. Cole, who was Utah's graduate from West Point in 1898. Miss Cole married Abert Cowan, and both will leave in the near future to de missionary work upon the Hawaiian. The College Women held their rites of initiation for new members last Fri-

do missionary work upon the Hawaiian islands.

The College Women held their rites of initiation for new members last Friday. Twelve girls of college grade became wearers of the crimson cap after a day of torment. In the morning each applicant for admission was adorned with old scraps of red, orange, blue, purple or green bunting—colors that had been the pride of graduating classes since 1889. Heads, necks, bosoms, backs, arms and waists were made hideous by clashing combinations of color. Each girl had her hair parted in the middle and braided into two pigtalls, abundantly tied with scraps of string. With this apparel the girls attended classes all day and were the "guys" of the school. At 4 o'clock the secret rites of initiation were performed in the College Women's room. What took place there only the "goddesses" know. About 5 o'clock the girls were brought out on the campus and made to perform all sorts of anties and finally had their photographs taken. They were then declared to be "College Women."

Agricultural College.

Agricultural College.

The experiment station staff held an important meeting Monday for the purpose of devising some means whereby the farmers could be brought into closer touch with the work of the station through the station publications. It was the general opinion that the station bulletins were too long and technical for this purpose. After a lengthy discussion it was decided unanimously to issue two series of bulletins; one for the farmers, written in a popular style, without the technical matters, such as long, tedious tables, etc. the other series to consist of detailed experiments, together with all technical matters pertaining to the experiments. The first series will be for general distribution, while the second series will be kept on file at the station, to be supplied on request. Another important step taken was the organization of a society, consisting of the station workers, which will meet monthly for a discussion of experiment station literature. Publications of the various stations throughout the United States will be digested during the coming winter. The first meeting occurs Monday, Nov. 3, 192.

President Kerr has been away the greater part of the week, attending the funeral of his nephew, W. J. Kerr of St. Anthony, Ida. The president returned on Friday.

Commandant Beers has the cadets separated into two companies of infantry.

er part of the week, attending the funeral of his nephew, W. J. Kerr of St. Anthony, Ida. The president returned on Friday.

Commandant Beers has the cadets separated into two companies of infantry. The old cadets form one company, under the temporary command of Captain Farrell; the other company consists of new men, under the command of Lieutenant Rich. The organization has not been perfected as yet. The officers will be appointed in about a week.

Tennis seems to be a favorice game with several of the girls and boys. A number practice several hours every day. It is likely that a team will be formed which will challenge any other scholastic team in the state.

The young ladies of the domestic arts department are busy "putting up" the fall fruits. A large consignment of peaches was standing in the halls the other day, to the great enjoyment of several of the students.

A training board has been instituted at the college for the football team. One of the basement rooms has been fitted up as a dining room, with one end partitioned off as kitchen. Sixteen members of the football team enjoy the arrangement in having their fare served at the college. The boys are highly pleased with the arrangement and appreciate the kindness of the management in looking out for their welfare.

Trustee McAllister was an interested visitor at the college on Thursday.

Professors Langton and Cambell accompanied the football team to Salt Lake City Friday in order to witness its contest with the national guard association. Mr. Madsen of this city went down also. He will act as referee in the game.

A new laundry class consisting of thirty young ladies has been organized. The class is under the management of this Holgrenn, assisted by Miss Morrell. Miss Baker's mother was a visitor at the college during the past week. Mrs. Baker has almost decided to remain in Logan for the winter.

The Ladies' club. consisting principally of the wives of members of the faculty met last Monday at Mrs. Flemings. The next meeting will be held next Monday a

season.
Fullback J. Jardine had the misfortune to break his hand in a practice game on Thursday. Jim will not be able to play any more this year.
The field parties in civil engineering are doing excellent work under the direction of instructor Beers.
Miss Josephine Maughan of the senior class, who has been out of school for several weeks on account of the serious illness of her sister, returned to the college on Thursday.

The date on which the local team will play the eleven from the Agricultural college of Colorado has been changed to Monday, Oct. 21.
John Stewart, formerly assistant chemist in the college, has been appointed chief chemist at the Logan sugar factory.
Professor Linfield will leave for Montana some time next week.
